

An aerial, high-angle photograph of a city street. A prominent white crosswalk with thick stripes is visible, crossing a dark asphalt road. Four pedestrians are walking across the crosswalk, their shadows cast long and dark on the pavement. The lighting is dramatic, suggesting a low sun, creating a strong contrast between the dark road and the white stripes. The overall mood is modern and minimalist.

CORROSION

VESTIGES

The "Vestiges" collection explores the aesthetic of urban decay, drawing inspiration from rusty, galvanized, and oxidized surfaces.

It highlights how rust and corrosion, ever-changing and reactive, mirror life. Instead of symbolizing decay, "Vestiges" celebrates progress and development. The collection uses dense construction to capture the intricate details of corrosion, offering versatile organic patterns that complement any environment.

This mood board draws inspiration from the tactile nature of slub yarn, the intellectual challenge of crossword puzzles, and the dynamic energy of technology and innovation. The fusion of these elements creates a vibrant visual narrative that celebrates creativity, complexity, and connectivity. The smooth and uneven finishes representing technological advancements, combined with rougher textures to balance organic and digital look. The colour palette incorporated in this collection interprets a muted pastels version of carpet tile which evokes a sense of calm amidst of complexity.
